RE: Saltex Price Increase.

Dear Valued Customer,

Effective immediately or as permissible by contract, Saltex LLC is increasing prices for all grades of sodium sulfate, anhydrous by \$30.00 per short ton. This increase applies to both bulk and packaged product.

The price increase reflects market conditions, such as increasing demand in new and existing sectors coupled with a significant decrease in supply with over 50,000 tons of sodium sulfate capacity removed from the market place.

We value the business you have entrusted to Saltex and are committed to providing a reliable and secure supply of quality Sodium Sulfate. Should any questions arise, please contact your Saltex, LLC representative.

Sincerely,

*Krystyna Kichner-Muldoon*
