

PRESS RELEASE

Fort Worth, TX — March 3, 2015 — Cooper Natural Resources, Inc. today announced that it has partnered with two oilfield professionals, Casey Pearson and Wes Crowder, to form a new division, Xpress Fleet Maintenance (XFM). XFM will provide onsite preventive maintenance services for heavy equipment to include oil field pressure pumping equipment, off highway and other ancillary equipment.

“Wes and Casey have a great track record in this important service business. It also complements our business with current customers of our Energy Services Group. We have every confidence that Wes and Casey will develop this business to create value for our customers and for our stakeholders,” said Greg Cooper, CNR’s chairman and CEO.

“Our motto is anytime, anywhere, 365 days a year” said Casey Pearson, General Manager of XFM. “Our highly trained teams provide a quality and dependable service freeing up our customers’ in house resources for more complex repairs.”

XFM provides a range of services including customized equipment preventive maintenance services, DOT inspections, and detailed service and maintenance reports. These services allow our customers to reduce employee overhead, filter and fluid inventories, and most importantly, to extend equipment life and reduce equipment downtime.

Founded in 1996, Cooper Natural Resources, Inc. is a holding company with interests in chemical manufacturing, oilfield services (including chemical distribution and preventive maintenance services) and consumer products. You can visit Cooper Natural Resources at www.CooperNatural.com.
